October 10, 2024
09:15 – 16:00 CEST

Official Side Event of

Venue: KPMG, Heidestraße 58 · 10557 Berlin

Registration ([Link](#))

The German-East European Health Forum, organised by the [German Eastern Business Association](#) and the [German Health Alliance](#) as an Official Side Event of the [World Health Summit](#), provides a framework for exchange and networking with decision-makers from Germany and the partner countries, company representatives, experts and researchers. The eighth edition of the Health Forum will focus on key topics such as health investments, the creation of innovation hubs, modernizing health infrastructure, and fostering partnerships to strengthen health systems.

In recent years, healthcare systems across Central, Eastern and South Eastern Europe, the Baltics, the South Caucasus, and Central Asia have undergone significant developments. Governments in these regions have actively worked to improve healthcare infrastructure, increase access to quality medical services, and implement necessary health policy reforms. Efforts have been made to strengthen healthcare financing and promote public-private partnerships to address the diverse healthcare needs of their populations. Additionally, advancements in medical technology and digital health solutions have played a crucial role in improving healthcare delivery and patient outcomes. As the region continues to evolve, stakeholders remain committed to fostering innovation, cooperation, and cross-border collaborations to ensure sustainable and equitable healthcare development in Eastern Europe, the South Caucasus, Central Asia, and the Baltics.

We would like to offer you an opportunity to engage with high-ranking decision-makers from our partner countries, as well as representatives from leading companies and experts in the health sector.

The Forum takes place as an on-site conference in Berlin. The working language is English.

In cooperation with:

	WORLD HEALTH SUMMIT 2025, OCTOBER 12-14, 2025 The World Health Summit is the unique international strategic forum for global health. Held annually in Berlin, it brings together stakeholders from politics, science, the private sector, and civil society from around the world to set the agenda for a healthier future by inspiring innovative solutions for better health and well-being. The World Health Summit was founded in 2009 on the occasion of the 300th anniversary of Charité – Universitätsmedizin Berlin. It is traditionally held under the patronage of the German Chancellor, the French President, the President of the European Commission, and the Director-General of the World Health Organization (WHO). President of the World Health Summit is Axel R. Pries, Dean of Charité. #WHS2024 - where science, politics, the private sector and civil society meet for inspiring talks, enhanced cooperations and new solutions.
